**DETAILED ACTION**

1        This action is responsive to the remarks filed 10/26/2003.

2        The rejection of claims 1-8 under 35 U.S.C. 103(a) as being unpatentable over Burns (US  
5,942,009) is maintained for the reasons set forth in the pervious office action that mailed on July  
31, 2003.

***Response to Arguments***

3        Applicant's arguments filed 10/26/2003 have been fully considered but they are not  
persuasive.

With respect to the rejection based on Burns (US' 009), Applicant argues that Burns teaches that hair is processed using a waving agent and then contacted with a coloring composition while the applicant's invention is a selective waving and coloring of separate portions of the hair therefore, Burns teaches away from the invention method.

The examiner respectfully disagrees with the above arguments because the reference of Burns teaches similar method for permanent waving and coloring of the hair with less time and without damage to the hair (see col. 8, lines 27-53). Therefore, the prima facie case of obviousness has been established. Further, the examiner advised the applicant to provide a showing or data to indicate that the claimed method provided superior and unexpected results over the method of the prior art of record when apply to the hair.

4        **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time  
policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
